## HEIGHT SAFETY

Falls from height (even under  
3 metres) usually results in  
serious harm or worse...

As health & safety practitioners we are  
going to bump into height safety issues  
even if it's in a warehouse or with the  
air con contractor we hire....

**Capital Safety** are international experts  
in fall protection and their NZ  
representative will be briefing us on  
latest developments and safety  
principles. We will also experience an  
interactive demonstration in the car  
park using a portable gantry.

RSVP to [ralph@workplace-safety.co.nz](mailto:ralph@workplace-safety.co.nz) to give us  
an indication of attendees for catering
